Thursday, April 21, 10:30 - 11:30 am

Zoom Game: Language Friends/Fake Friends

Presenter: ESL Students – Jessica Pardoe

When you are learning a new language, a cognate is an easy word to remember because it looks and/or sounds like and has the same meaning as a language you already know. These words are our "friends" because they are easy to learn and remember. However, many false cognates exist as well. We call these words "fake friends" because they look and/or sound like a word in a language we already know but actually mean something different in this language. Do you think you can tell the difference between the two? Please join multilingual SRJC students in an interactive language game where you try to guess the English meaning of cognates and false cognates from other languages.

The World Languages Department is sponsoring The World Languages Fair to promote, celebrate and embrace our World Languages and cultural diversity. Our mission supports the global and multicultural goals of the College by promoting understanding of and respect for other nations and cultures, and providing students with a foundation in international history and culture that enables them to pursue their educational and personal goals. International language and culture courses provide a unique opportunity to enrich one's ability to understand oneself and communicate with others.
